

# Phonak CROS P

## Product information

Phonak CROS P is a solution for unilateral hearing loss designed to help the wearer follow\* conversations wherever they come from\*\*<sup>1</sup>. CROS P is worn on the unaidable ear to pick up sounds and wirelessly transmits them to a Phonak Audéo™ P hearing aid worn on the ear with better hearing. CROS P has no acoustical output.

CROS P includes two models and is compatible with Audéo P-13T, Audéo P-R and Audéo P-RT hearing aids in all performance levels. For more information visit [www.phonakpro.com](http://www.phonakpro.com)

\* Follow - means awareness of conversation for the wearer to attend to.

\*\* when using a CROS system compared to unaided.

CROS Tip	<ul style="list-style-type: none"> <li>Fully custom made earpiece for CROS, available in four different cable lengths (0, 1, 2, 3)</li> </ul>

## Phonak CROS P-R charger options

CROS P-R can be charged together with the paired Audéo P-R or Audéo P-RT using either a Phonak Charger Case Combi or a Phonak Mini Charger Case.

For more information please refer to the product information of Phonak Audéo P.

<sup>1</sup> IP68 indicates that the hearing aid is water and dust resistant. It survived continuous immersion in 1 meter of fresh water for 60 minutes and 8 hours in a dust chamber as per the IEC60529 standard.

<sup>2</sup> Actual charging time depends on the remaining battery life, but it will not exceed 3 hours.

# Fitting

	CROS P-R	CROS P-13
Phonak Target	7.1.9 or higher	7.1.9 or higher
Noahlink Wireless	•	•
NOAHLink		•
HI-PRO, HI-PRO2		•

## Wireless Communication Portfolio

When using wireless accessories, they will connect to the hearing aid on the better ear. When the signal from an accessory is present, the CROS signal will pause, and will resume as soon as the signal from the accessory has stopped. Please consult the product information of Phonak Audéo P for a complete list of compatible accessories.

## Key features

CROS P can be fit with an Audéo P of any performance level. Therefore the set of features that a client wearing a CROS P system will experience is mainly dependent on the performance level of the Audéo P hearing aid. Please refer to the product information of Phonak Audéo P or additional information.

### StereoZoom

StereoZoom can help improve speech intelligibility in challenging noisy environments<sup>1</sup>. StereoZoom is available for hearing aids of Premium and Advanced performance levels.

### CROS balance

CROS balance adjusts the loudness ratio between the CROS device and the hearing aid.

### AutoSense OS™ 4.0

AutoSense OS 4.0 automatically senses your client's listening environment in real-time. It draws from multiple features, while accurately blending them to provide a seamless listening experience.
