

Conversations shine for everyone with Lumity.

Introducing Phonak Audéo™ Lumity so you
can stay connected to your loved ones.

For over 75 years, Phonak has continued to create innovative hearing solutions that positively impact millions of people. We believe that hearing well is essential to your overall well-being. For this reason, we create solutions that are designed to keep you engaged socially, thriving mentally and feel good physically.

Being able to fully participate in conversations is like a spark of light in the dark. When you can hear and understand conversations around you, it can illuminate your entire world.

This is where Phonak Audéo Lumity really shines. It focuses on giving you improved speech understanding¹ with its unique Phonak SmartSpeech™ Technology. Now you can enjoy conversations in many challenging listening situations and can stay connected to your loved ones. Get ready for an enlightening listening experience and shine with Lumity.

Conversations shine for everyone with Lumity.

Fully immerse in conversations

Hearing can be challenging in different situations. In order to truly keep up and participate in conversations around you, it's important to understand well.

Phonak Lumity with unique SmartSpeech Technology improves speech understanding¹ and increases focus on what you want to hear.

Hearing aid users report social benefits of hearing aid use, such as better ability to engage in group activities and positive impact on relationships.²

With Lumity, fully immerse in conversations around you and enjoy easier hearing in many situations.¹

Having more access to sound not only provides clarity, but reduces listening effort.³

Intelligently boost speech understanding in noise⁴

When you're in a group, in loud noise or when there's a distance to overcome, you might need a little extra help to hear well. This is where Phonak Lumity, combined with other unique Phonak innovations, truly shines.

ActiveVent™ Receiver*

The world's first intelligent hearing aid speaker

It is capable of combining both comfort and hearing performance. Intelligently controlled by the proprietary Phonak automatic operation system, AutoSense OS™, it balances between comfort and performance in challenging social situations, in addition to delivering superior sound quality for streaming media in quiet.** This speaker provides on average 10% better speech understanding in noise and natural sound quality in everyday listening situations.^{4**}

Roger™ Technology

Boosting speech understanding in noise and over distance

When combined with Phonak hearing aids, Roger improves speech understanding allowing you to fully participate in conversations in many challenging situations such as restaurants, meetings at work or college lectures.⁵

* ActiveVent is not available for Audéo L-312.

** Compared to conventional acoustic coupling.

Connect with the world around you

Universal connectivity

Phonak Lumity provides direct connectivity to iOS and Android smartphones, TVs, Roger devices and wireless accessories. Make true hands-free calls and pair up to eight Bluetooth® enabled devices, while two can be simultaneously connected. We live in a world where everything's connected. With Lumity, connect with the world around you.

Tap Control*

Control at your fingertips

Thanks to lithium-ion technology and an integrated motion sensor, Phonak Audéo Lumity makes it possible to steer Bluetooth features via a double tap on your ear. This function allows you to accept/end calls from your connected iOS or Android smartphone. You can also pause/resume streaming from connected Bluetooth devices and access Bluetooth based voice assistant apps.

* Tap Control is not available for Audéo L-312.

myPhonak app

Monitor your well-being

With myPhonak you can take control of your hearing aids. Use the Remote Control functionality or personalize your features whenever or wherever you like. Health data tracking functionality even allows you to track your physical activities and provides you with helpful insights like step counting and activity levels**. Also, through the app you can directly connect with your clinic for a truly personalized hearing experience. Get more health insights and monitor your well-being with myPhonak.

Hearing care professionals rate Phonak as #1 for connectivity solutions.⁶

** Health data tracking is not available for Audéo L-312.

Let conversations shine

Featuring our most innovative hearing technology, Phonak Audéo Lumity enables you to enjoy conversations while taking control of your hearing. Whether it's monitoring your physical activities or connecting to your favorite Bluetooth devices or wireless microphones, Phonak Audéo Lumity will keep your conversations shining!*

* Certain features are limited to specific models.

The second generation of the world's first waterproof* rechargeable hearing aid.

Phonak Audéo Life™ Lumity

Light up your hearing confidence with Phonak Audéo Life. It can be submerged in up to ½ a meter of fresh or salt water. If you're sweating at the gym during an intense workout, relaxing by the pool or get caught in a rain shower, Audéo Life is the ideal solution for anyone who puts their hearing aids to the test.

*up to 50cm.

Choose your shine

Choose a model that suits you and shine bright with Lumity. Phonak Audéo Lumity models are available in various colors, with or without telecoil and as waterproof option. Your hearing care professional can help you find the right model to keep your conversations shining.

Charging options

Phonak Charger Ease Go

For users of Audéo L-R/RT who wish for an easy on-the-go solution. It features a more spacious cavity to accommodate bigger earpieces compared to Phonak Charger Ease.

Phonak Charger Ease

In a small and compact design, it charges Audéo L-R/ RT hearing aids in just three hours to offer a full day*⁷ of hearing.

Phonak Charger Case

Go™

An inductive, easy to use charger with an internal battery, exclusively designed for charging Audéo Life on-the-go, up to 3 times on a single charge. Also available is the Phonak Life Charger™ utilizing inductive charging technology without a built-in battery.

*16 hours of battery on a single charge, including 8 hours of everyday listening, 4 hours of Bluetooth streaming and 4 hours of TV streaming. Battery life may be minimally reduced when using ActiveVent Receiver.

Products that you can rely on

We constantly work to test and improve our products to ensure that we bring you the quality, reliable hearing solutions that you need - so that Life is On for you all the time.

Durable products

Tested to the extreme

Constantly improving
